

PECB

**GDPR**

Certified Data  
Protection Officer

**Duration**  
5 DAYS

The PECB Certified Data Protection Officer training course enables you to acquire the necessary knowledge and skills, and develop the competence to perform the role of the data protection officer in a GDPR compliance program implementation.

# Why **should** you attend?

---

As data protection is becoming more and more valuable, the need for organizations to protect these data is also constantly increasing. Besides violating the fundamental rights and freedoms of persons, not complying with the data protection regulations can lead to risky situations that could harm an organization's credibility, reputation, and financial status. This is where your skills as a data protection officers come to place.

The PECB Certified Data Protection Officer training course will help you acquire the knowledge and skills to serve as a Data Protection Officer (DPO) so as to help organizations ensure compliance with the General Data Protection Regulation (GDPR) requirements.

Based on practical exercises, you will be able to master the role of the DPO and become competent to inform, advise, and monitor compliance with the GDPR and cooperate with the supervisory authority.

After attending the training course, you can sit for the exam, and if you successfully pass the exam, you can apply for the “PECB Certified Data Protection Officer” credential. The internationally recognized “PECB Certified Data Protection Officer” certificate will prove that you have the professional capabilities and practical knowledge to advise the controller and the processor on how to meet their obligations regarding the GDPR compliance.

# Who **should** attend?

---

Managers or consultants seeking to prepare and support an organization in planning, implementing, and maintaining a compliance program based on the GDPR

DPOs and individuals responsible for maintaining conformance with the GDPR requirements

Members of information security, incident management, and business continuity teams

Technical and compliance experts seeking to prepare for a data protection officer role

Expert advisors involved in the security of personal data

# Learning objectives

Understand the concepts of the GDPR and interpret its requirements.

Understand the content and the correlation between the General Data Protection Regulation and other regulatory frameworks and applicable standards, such as ISO/IEC 27701 and ISO/IEC 29134.

Acquire the competence to perform the role and daily tasks of the data protection officer in an organization.

Develop the ability to inform, advise, and monitor compliance with the GDPR and cooperate with the supervisory authority.
