

PECB

 **★★★★★**
EXPERTS

ISO/IEC 27701

Lead Implementer

Why **should** you attend?

This training course is designed to prepare its participants implement a Privacy Information Management System (PIMS) in compliance with the requirements and guidance of the ISO/IEC 27701.

Moreover, you will gain a comprehensive understanding of the best practices of privacy information management and learn how to manage and process data while complying with various data privacy regimes.

Duration
5 DAYS

After mastering the implementation and management of a Privacy Information Management System (PIMS), you can sit for the exam and apply for a "PECB Certified ISO/IEC 27701 Lead Implementer" credential. The internationally recognized PECB Lead Implementer Certificate proves that you have the practical knowledge and professional capabilities to implement the ISO/IEC 27701 requirements in an organization.

Who **should** attend?

Managers and consultants involved in privacy and data management.

01

Expert advisors seeking to master the implementation of a Privacy Information Management System.

02

Individuals responsible and accountable for Personally Identifiable Information (PII) within organizations.

03

Individuals responsible and accountable for Personally Identifiable Information (PII) within organizations.

04

PIMS team members.

05

Learning Objectives

Master the concepts, approaches, methods and techniques used for the implementation and effective management of a PIMS.

Learn about the correlation between ISO/IEC 27701, ISO/IEC 27001, ISO/IEC 27002 and other standards and regulatory frameworks.

Understand the operation of a PIMS based on ISO/IEC 27701 and its principal processes.

Learn how to interpret the requirements of ISO/IEC 27701 in the specific context of an organization.

Develop the expertise to support an organization in effectively planning, implementing, managing, monitoring and maintaining a PIMS.

Educational Approach

This training course is based on both theory and best practices used in the implementation of PIMS.

01

Lecture sessions are illustrated with examples based on case studies.

02

Practical exercises are based on a case study which includes role playing and discussions.

03

Practice tests are similar to the Certification Exam.

04

Prerequisites

A fundamental understanding of information security and comprehensive knowledge of the ISMS implementation principles.
